

WINTER 2021

CORONET PEAK

NEW FOR 2021

- 01** Planting over 3,000 native tussocks and hebes to regenerate trails
- 02** New wastewater treatment plant to improve our environmental outcomes
- 03** Upgrading snowmaking pipe lines to ensure consistent and reliable snowmaking throughout winter
- 04** A new 'self serve' area in the base building for those bringing a picnic, including a hot water boiler and seating.
- 05** A new Montana Twister ski tuning robot to ensure our rental equipment will be in the very best condition. It will also give guests the chance to get the very best tuning for their gear on mountain

EVENT HIGHLIGHTS

23 JUN

FIRST NIGHT SKI

Enjoy floodlit slopes before warming up by the fire on the deck. Night Ski is a must-do when visiting Queenstown.

15 AUG

DOG DERBY

Dogs and owners cause mayhem as they race down the mountain together. A great day to spectate or bring your dog up to compete.

NATIONAL POINTS AND NATIONAL CHAMPIONSHIPS

The best New Zealand skiers from U14, U16 and FIS race in a multiple discipline series.

ABOUT US

Coronet Peak, located in Queenstown, New Zealand, was the country's first commercial ski field, providing good times since 1947.

The mountain is Queenstown's urban playground only 20 minutes from downtown along a sealed road. Guests are treated to freshly groomed trails during First Tracks from 8am daily, right through to Night Skiing on Wednesdays, Fridays, and some Saturday nights until 9pm.

Coronet Peak has 280ha of skiable terrain, a 1649m elevation with a 462m vertical drop. An extensive state-of-the-art snowmaking set up (the largest in the Southern Hemisphere) ensures peak conditions throughout the whole season.

In 2019, summer operations launched and includes sightseeing with the Peak gondola, and chairlift accessed mountain bike trails.

Coronet Peak is committed to kaitiakitanga, guardianship, over the mountain. There is a strong programme of activity to restore and enhance the environment including work to eradicate wilding, non-native plants, revegetating trails, and pest control.
