

WINTER 2025

# THE REMARKABLES

the remarkables  
Queenstown • New Zealand

the **remarkables**  
Queenstown • New Zealand

## NEW FOR 2025

- 1 We've got new snowmaking ready to rumble - including two guns on mid-Calypso and we as some extra on the Shadow Basin cat-track
- 2 Expect to see even more of the slopes groomed with a brand new groomer ready for the season
- 3 The Remarks will now be home to a state of the art ski/board waxing machine

## THE REMARKABLES 40TH 26-28 SEPT

We're turning 40 and it's time to celebrate! Head to page website

### EVENT HIGHLIGHTS

3 AUG - 8 SEPT

#### GRASSROOTS FREERIDE

This special event is for our up and coming skiers and riders to get a taste of what it's like to compete in freeride. Hosting by Blake Marshall and Hannah Wilson.

6 SEPTEMBER

#### BURTON STASH GATHERING

A gathering of skiers and snowboarders in the Stash enjoying a custom park along with music, a BBQ and spot prizes.

10-13 SEPTEMBER

#### SNOW MACHINE

It's time to party on the slopes with Snow Machine - the best vibe around, great music and a whole lot of fun.

## ABOUT US

---

Here at The Remarkables we're on a mission to do the best we can by our unique environment. This has inspired us to make the ambitious commitment to be carbon neutral by 2030.

We've already reduced our emissions by over 50%, and we continue to chip away at that number with the aim of reducing a further 5% each year.

We're proudly guided by the concepts of kaitiakitanga (meaning: guardianship and protection) and manaakitanga (meaning: respect, generosity and care). We understand and acknowledge that our environment is the backbone of our operation, and it's our responsibility to look after it.

We don't take anything we do for granted and our promise to share our passion for the mountain has never felt as important as it does right now, as we continue on our journey to carbon neutral by 2030.

## ROAD TO CARBON NEUTRAL

The Remarkables belongs to family owned and operated business – NZSki. Our sister mountains are across the valley at Coronet Peak and further north at Methven’s Mt Hutt.

At NZSki our primary greenhouse gas emission sources are diesel fuel - used for grooming, transport and building heating - and electricity. Together our three mountains produce approximately 3000 Tonnes of greenhouse gas emissions (Scope 1 and 2 only) annually.

### HOW WE’RE MAKING A DIFFERENCE

#### WASTE REDUCTION:

In 2024, we introduced Sorting Stations to our food/drink outlets, reducing waste to landfill by 42% through better recycling and reusable tableware.

#### TRANSPORT EFFICIENCY:

Our carpool priority initiative at Mt Hutt cut guest-related emissions by 30%, saving around 11 tonnes of CO2 per day at our sister mountain.

#### SUPPORT FOR CONSERVATION:

In 2024, we raised \$21,700 for the Kea Conservation Trust and \$29,800 for the Westpac Rescue Helicopter Trust.

#### RENEWABLE ELECTRICITY:

We’ve partnered with Meridian Energy to use their Certified Renewable Energy product. This allows us to report our mountain market-based Scope 2 emissions as zero.\*

#### CARBON CREDITS:

We’ve purchased carbon credits from Climate Action Company (formerly Carbonz). Since 2022 we have purchased 1336 tonnes of carbon credits to offset emissions.

\*Using the market-based reporting methodology as per the GHG Protocol’s Scope 2 Guidance.
